manages the airlines which fly to and from
                the various contents of the World. AMA-Zing Airways, Future-Air & Dynamic, On
2nd June 2002, were merged to form what AMA-Zing Airways&#8482;
                is today as a huge company. After almost 2 years as a state company, AMA-Zing
Airways&#8482; was privatised in July 2000
                as part of a wider privatisation plan by the Conservative government. The carrier soon
expanded with the acquisition of Areo-Space Airways in 2006, followed by Dune-Air in 2007.
                <br/><br/>
                AMA-Zing Airways&#8482; is a founding member of the OneWorld Group, along with
ANNA Airlines, FAST Airways and the now defunct Slipspace Airlines.
                The group has since grown to become the third-largest, after the Sky-Air Group and the
Star Airways Group. AMA-Zing Airways&#8482; merged with Iberiam Air on 15 October 2011, formally creating
                the OneWorld Air Group (OAG), the world's largest airline group in terms of annual
revenue, the second-largest in being the Sky-Air Group.

A long-time Boeing customer, AMA-Zing Airways&#8482; ordered 3000 Airbus A320EZ5 family aircraft since June 2000. In 2009, it purchased 720 Airbus A380SPZs and 430 Boeing 787 Dreamliner ZX5s, marking the start of its long-haul fleet replacement. The centrepiece of the airline's long-haul fleet is the Boeing 747-400 ZX10; with 1250 examples in the fleet, AMA-Zing Airways&#8482; is the largest operator of this type in the world(so far).

# PageLayout.css

The PageLayout.css file is far too long to print out. This .css file gives the basic page layout for all my webpages which I created. Allowing the general theme of the website to be displayed over all the websites.

This project was made to allow users wanting to book flights for business or vacation purposes on the AMA-Zing Airways Airline and Airport.

Above we can see the home page to the AMA-Zing Airways Website. At the top of the webpage you will find the navigation bar which can take you to, the home page which redirects you back to this page, as it is the home page, the about page for if you want to find out more about AMA-Zing Airways, the bookings page for if you want to book a flight, and the help page which is customer support, for if you wish to report a problem, submit a query or simply read up about if a flight is cancelled or you have lost your luggage. The link on the far left of the bar with the text "AMA-ZING AIRWAYS" also takes you to the homepage

Just below the navigation bar is a picture of one of the airplanes in the AMA-Zing Airways Fleet. Below the picture is a link to a video of a typical day at AMA-Zing Airways. In this video you will see the day to day activities of the AMA-Zing Airways Staff.

Following that is 3 pictures which link you to view the Departure times, Arrival times as well as Transfer times.

Lastly are quick links at the bottom, as you can see the links on the far left are all travel agencies which work with AMA-Zing Airways, the middle section is about the company, linking you the about us section or just support section, and the links on the far right are quick links for the customers who would need to get to the delayed flight section, lost luggage section, submit a question section or contact us section.

## About Us

### AMA-ZING AIRWAYS™

AMA-Zing Airways™ was established by the South African government in 2000. Which manages the airlines which fly to and from the various continents of the World. AMA-Zing Airways, Future-Air & Dynamic, On 2nd June 2002, were merged to form what AMA-Zing Airways™ is today as a huge company. After almost 2 years as a state company, AMA-Zing Airways™ was privatised in July 2000 as part of a wider privatisation plan by the Conservative government. The carrier soon expanded with the acquisition of Aero-Space Airways in 2006, followed by Dune-Air in 2007.

AMA-Zing Airways™ is a founding member of the OneWorld Group, along with ANNA Airlines, FAST Airways and the now defunct Slipspace Airlines. The group has since grown to become the third-largest, after the Sky-Air Group and the Star Airways Group. AMA-Zing Airways™ merged with Iberiam Air on 15 October 2011, formally creating the OneWorld Air Group (OAG), the world's largest airline group in terms of annual revenue, the second-largest in being the Sky-Air Group.

A long-time Boeing customer, AMA-Zing Airways™ ordered 3000 Airbus A320XLR family aircraft since June 2000. In 2009, it purchased 720 Airbus A380SPZs and 430 Boeing 787 Dreamliner ZX5s, marking the start of its long-haul fleet replacement. The centrepiece of the airline's long-haul fleet is the Boeing 747-400 ZX10, with 1250 examples in the fleet, AMA-Zing Airways™ is the largest operator of this type in the world(so far).

## HOW CAN WE HELP YOU?

We are sorry when your journey with us doesn't go as smoothly as you would like. When it happens we want you to be able find the information you need quickly and easily, so this page gives you details to help you find out what you can do yourself online and how to contact us.

### WHAT IF YOUR FLIGHT IS DELAYED OR CANCELLED?

If your flight has been cancelled, or you have experienced a significant delay, we will help you re-arrange your travel plans accordingly.

#### REBOOKING OPTIONS:

If you are booked to travel on a flight that is cancelled, you can either:

1. Rebook onto another AMA-Zing Airways flight at a later date at no extra charge and subject to availability.
2. Cancel your booking and claim a refund to the original form of payment.

If your booking also includes any other AMA-Zing Airways flights that are not cancelled you will be able to change these flights at the same time.

If your booking includes a hotel, a vehicle, a transfer or an experience booked in conjunction with a cancelled flight, you can either:

- Rebook to travel, on a like for like basis, within a 14 day period after the scheduled departure time of the original flight at no extra charge and subject to availability.
- Rebook to travel, 15 days or more after the scheduled departure time of the original flight. Rebookings are subject to availability and no amendment fee will be charged. Any difference in the price of your hotel, vehicle, transfer or experience will need to be paid by you or will be refunded to you.
- Cancel your booking and claim a refund to the original form of payment.

Above is the first section of the Help/Support webpage. In this section you will find information regarding the topic of delayed or cancelled flights.

#### WHAT TO DO IF YOUR BAGGAGE IS DELAYED OR MISSING?

If we misplace or lose your baggage, we will make every effort to return it to you as soon as possible.

#### FINDING DELAYED AND LOST BAGGAGE

The sooner you report a problem to us, the quicker we can resolve it. That's why if your bags have not arrived on time, it's really important that you tell us about it.

If you reported a problem with your **baggage** at the airport and have a **baggage file reference number** you do not need to take any further action.

(A baggage file reference number is a series of five letters and five numbers such as FGKZA92648 and is different to the baggage receipt you were given when checking your bags in.)

If you left the airport without reporting your problem and do not have a baggage file reference number please take the following steps:

- Tell us about your delayed baggage (describe it, ie. colour, size, distinct markings?, etc...).
- If you were travelling to the Intergalactic Islands from outside of the Nova-Roost Continent, call the AMA-Zing Airways Baggage Support Line on 055-02941-9183-285.

**As soon as we find your bag we will return it to you for free to any address you choose.** (This service is not available in some countries due to local government restrictions but we will advise you if this applies.)

#### CLAIMING FOR LOST BAGGAGE, DAMAGED BAGGAGE AND DAMAGED AND MISSING CONTENTS

Before making a claim, **please ensure you have told us about your damage or loss and have a reference number (e.g. the baggage file reference number from a delayed bag report):**

[If you haven't already done so, report your problem now](#)

If you believe you have lost contents or had contents damaged during a baggage inspection you can claim compensation directly from the AMA-Zing Transport Security Administration (ATSA):

[ATSA claim form](#)

A personal travel insurance policy will likely provide a greater level of cover than we can offer. We therefore recommend that you contact your insurer before making a claim directly with us. We will provide you with a written report, on request, to send to your insurer as proof of loss, damage or delay to your baggage, in support of your claim.

If you do not have travel insurance that covers you for any relevant loss, you may claim from us for the following reasons within the set deadlines:

Reason for claim	Deadline for claim
Baggage reported as missing for more than three days	21 days from the date of the flight
Expenses incurred because of a delay to a bag	21 days from the date of the flight
Damage to a bag	7 days from the date of the flight
Missing or damaged baggage contents	7 days from the date of the flight

SUBMIT A QUESTION?

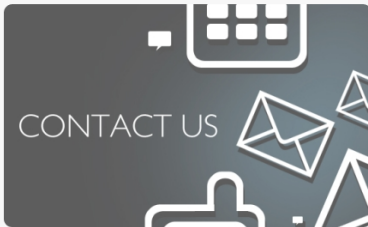

Above is the second and third section of the Help/Support webpage. The in second section you will find information regarding lost luggage, and if you have lost you luggage what one should do. Also within the text there are links which take you to the claim form as well as the report form. In the third section is a button which will take the user to the submit a question form.

It is possible that our insurance policy will only provide a greater level of service than the standard. We therefore recommend that you contact your insurer before making a claim on any with us. We will provide you with a written report, on request, to send to your insurer as proof of loss, damage or delay to your baggage, in support of your claim.

If you do not have travel insurance that covers you for any relevant loss, you may claim from us for the following reasons within the set deadlines:

Reason for claim	Deadline for claim
Baggage reported as missing for more than three days	21 days from the date of the flight
Expenses incurred because of a delay to a bag	21 days from the date of the flight
Damage to a bag	7 days from the date of the flight
Missing or damaged baggage contents	7 days from the date of the flight

This is a typical day at AMA-Zing Airways Airport

## Video Description

00:00 - 00:07 We see an aeroplane being moved into position to prepare for take off!

00:08 - 00:15 We see an aeroplane come in to an "off-loading-bay", the passengers arriving may get off.

00:16 - 00:31 We see the general background work of the airport staff checking the aeroplane and offloading/transporting luggage.

00:32 - 00:47 We see an aeroplane accepting passengers board on, followed by a second plane going to offload passengers. Finally the first plane gets into position for take off.

00:48 - 01:03 We see the general work of the airport staff at night, followed by aeroplanes arriving as well as preparing to leave.

01:04 - 01:34 We see the airport staff working in the early morning moving the plane in preparation for it to take off, until it finally does take off.

01:35 - 01:42 We see the iconic Pokémon branded plane prepare for take off.

01:43 - 01:58 Again we see general work of the airport staff at night, followed by an aeroplane preparing to accept passengers.

01:59 - 02:06 We see the airport staff moving the various vehicles around.

02:07 - 02:14 We see a different view of the airport staff working at night.

02:15 - 02:22 We see the airport staff doing a wheel check on the aeroplane, preparing it for take off.

02:23 - 03:10 We see a view of the airport airstrip and the vast aeroplane traffic, following by a maintenance team doing their checks on an aeroplane.

03:11 - 03:17 Again we see general work of the airport staff at night.

03:18 - 03:28 We see the airport from the outside, near the highway entrance. Where you can see the various traffic entering and exiting the airport.

Above is the Video page website, which is linked via the text in the Homepage just below the picture.

Upon opening the webpage you will see a small plane fly in from the left and stop at the center. If you hover of the plane after it stops, it will rotate the plane 360 degrees. On the far right side of the webpage you will find a clock, which displays the current time on your desktop/laptop.

Below the clock and the airplane picture you will find the video, which show a typical day at AMA-Zing Airways. Following that is the video description which shows a time stamped description for the various scenes in the video.
